FLOOR EXPERT

2023

VINYL FLOORING

WITH MINERAL CORE

mid-year edition

WE ARE THE **FLOOR EXPERTS**

**WE CREATE
WE TEST
WE PRODUCE**

From 2022 we have started our production on vinyl click floors. Our modern factory located in Środa Wielkopolska is fully integrated with our facility and now we are able to offer comprehensive flooring system totally made in EU.

Our A.design studio is responsible for unique decor patterns, inspired by the most beautiful varieties of wood from around the world. Engineering are developing products that provide better and better technical parameters. Production Team and Quality Control ensure that our vinyl floors are the same, highest quality every single time.

Our own laboratory is testing thousands of samples every year so we can offer you the best vinyl floor system on the market.

We know how to produce not only floors, but also how to install them and maintain them. When you buy Arbiton floors, you will receive not only an excellent product with perfect technical parameters, but also a professional team of experts who take care of the after-sale service at every step.

**HD MINERAL
CORE®**

In our laboratories we've discovered an innovative combination of natural rock minerals and advanced polymers. Carefully combined proportions ensure maximum performance of the floor. Our HD Mineral Core® provides extreme durability which we confirm by giving you 20 year guarantee. We are proud of the quality of our products free of phthalates and harmful plasticizers.

DESIGNED BY A.DESIGN STUDIO

Preparation of floor designs by our A.design Studio is a multi-stage and long-term process. The heart of the process is to identify our customer's needs. That is why every year we review thousands of new house and interior designs, describe and analyze trends in fashion and industrial design, and conduct discussion panels with architects and designers from all over Europe. All this to select the best designs of our floors.

This is just the beginning of a long journey that takes us through thousands of varieties of wood and stone to prepare new Arbiton collections. It is thanks to the work of A.design Studio that our designs are bestsellers on so many markets, they are recognized both in Italy, the Czech Republic and the Benelux countries.

A DESIGN STUDIO.

ZERO WASTE PRODUCTION

OUR GOAL
IS A ZERO WASTE
PRODUCTION!

IT MEANS REUSING 100%
OF WASTE GENERATED
DURING THE PRODUCTION
PROCESS.

ANTISCRATCH - TITANIUM NANO LAYER

**FLOOR WITH
ANTISCRATCH -
TITANIUM NANO LAYER**

**STANDARD
LVT**

For last couple of years, professional automotive workshops offer protection of a paint layer. For additional fee, we can protect the paint coating with specially selected cosmetics. This service is mostly done on the new car even before it has left the dealership. The factory lacquer coating is being covered with ceramic or nanoparticles coating. This service satisfy the most demanding customers who want to enjoy the beautiful appearance of the car for years. Antiscratch - Titanium Nano Layer is inspired by these premium automotive detailing process. Antiscratch - Titanium Nano Layer protects the panels and secure them against micro scratches that can occur in the regular lifespan of use. The Antiscratch - Titanium Nano Layer protective coating is available in the top Arbiton collections - Amaron and Liberal. Technology used in these collections outperform in durability and scratch-resistance tests the majority of vinyl panels on the market. As a result sand, or even mud are no longer a threat because of the Antiscratch - Titanium Nano Layer and waterproofness protection. This means that Arbiton Amaron and Liberal can be easily installed in kitchens, dining rooms or even in bathrooms. And all these rooms can be unified – up to 200 m² without additional expansion joints. The combination of HD Mineral Core® and Antiscratch - Titanium Nano Layer guarantees a beautiful floor for many years.

THE FLOOR FOR THE MODERN TIMES

Modern times become more and more hectic, full of challenges and responsibilities. We live fast, try to make the most of every single moment. We are pushed to look for new solutions, technologies and clever ways to adjust items all around us to meet needs and expectations. With this in mind, **Arbiton HD Mineral Core®** floor was created. This floor impresses and surprises with practicality. Inspired by nature, vinyl floors are entirely designed by European A.Design Studio. Created for people just like you, who get the most out of each moment and enjoy the life to the fullest. The Arbiton floor design not only matches the latest trends, but also go ahead of times and creates them. Thanks to the timeless design its beauty will amaze you every day.

The pace of our life direct us towards solutions that will support and enhance us in everyday situations. That is why **Arbiton HD Mineral Core®** floors have been designed for their maximum comfort of use. Due to their advanced technical properties, they can be installed in any room without expansion joints between rooms. This allows to have beautiful, unified floor throughout the whole level of the apartment. With complete waterproofness and low thermal resistance they are perfect to fit in bathrooms with underfloor heating. They are easy to clean and antistatic, which prevents dust from adhering to them. Moreover, thanks to the innovative Antiscratch - Titanium Nano Layer they are up to 30% more scratch resistant. All of these features and properties mean that you get a floor which will meet the demands of our time. With Arbiton floor you can enjoy life thanks to not only its beauty but also a peace of mind with guaranteed unique functional properties.

DAYTON OAK
CWS 201

BEAUTIFUL AND PRACTICAL

BEAUTIFUL

REAL WOOD STRUCTURE

Unique and realistic wood design selected from the most beautiful wood type in the world.

BIG SIZE

WIDE BOARD

The widest plank available on the market - 229 mm - beautiful and the most natural looking floor.

SOFT TOUCH

Soft, delicate and mat finished flooring - the best representation of a real wood.

SILENT FLOOR

Nice and silent in everyday use vinyl flooring brings comfort and serenity to everyday life.

PATENDORF OAK
CA 170

PRACTICAL

WATERPROOF

No need to be scared of water. Our floors are 100% waterproof. Frequent cleaning or spilled drinks are no longer dangerous to your floor. Without concerns you can connect your kitchen floor with the rest of your living space.

DURABILITY+STRONGER LOCKING SYSTEM

HD Mineral Core® primarily means extremely strong locking system which gives the whole flooring system a maximum durability. Despite of small thickness of the plank our locks are 2 times stronger than average LVT locks available on the market.

UNDERFLOOR HEATING

Very low thermal resistance of our floors means more effective use of the underfloor heating system. Thanks to HD Mineral Core® less fuel is needed for floor heating and over 60% less carbon is released into the atmosphere from one household in Europe, each year.

DIMENSIONAL STABILITY

HD Mineral Core® also means high dimensional stability of the floor even in very sunny rooms. We offer at least 2 times higher dimensional stability of our floors in comparison to traditional LVT.

DIMENSIONAL STABILITY
(EN ISO 23999) up to 0,05%

High variety of designs means more natural impression of flooring. Perfect resemblance of wooden boards is a key benefit of our new Woodric collection.

Minimum of 10 different planks in each colour means naturally flowing design without repetition of grains and knots.

CAVAILLON OAK
CWS 210

REAL WOOD STRUCTURE NEW TECHNOLOGY OF EMBOSSING

For those who strive for the best looking floor and high durability we have prepared an absolute novelty. Our new WOODRIC EIR collection is made using embossing technology perfectly resembling wooden structure on a planks.

The EIR (embossed in register) technology we are using allow us to achieve higher resolution of embossing, meaning higher density of details enriching surface of planks. Woodric EIR has more knots, grain, clear figure, small indentation that create real wooden characteristic of the plank. A beautiful matte surface will gently emphasize the beautiful finish of the floor.

DESIGN BEVEL NEW LOOK

Woodric has a unique bevel inspired by true wooden boards and the delicate, continuous connection of the boards. Design Bevel perfectly resemble wood like look of the floor.

This creates a warm and natural feeling.

A.Design studio reproduced the most welcomed and demanded bevel among all flooring.

AMARON HERRINGBONE

Fashion passes- just to return later. Trends come and go but precious few hold on for a long time. Our Amaron Herringbone vinyl click floor is designed to belong to the latter group. Thanks to specially designed locking system this collection might be arranged in the iconic English herringbone pattern. This is an amazing way to adjunct traditional interior arrangements. The main element that indicates the direction of the interior style is the floor – any further decisions regarding the interior are based upon it. Furniture, textures, fabrics, accessories – all of those either correspond to the selected floor or stay in opposition on the basis of divergence. Regardless of which approach you choose, you can stay calm knowing that the Arbiton panels will secure you the highest quality.

AMARON WOOD DESIGN

Amaron WOOD means expressive designs which will create the character of the interior. The floors in this collection have the highest usage class, created for the most demanding customers. This floor will play first fiddle. The 5G lock makes the floor easy and fast to install. A beautiful floor is a crucial element of interior design. It brings character to the unified design or lets you play a bit with contrast in modern or typically loft interiors. In any way, the floor is the element that helps to create an interesting space- where colours, textures and shapes result in the imagined effect-a sense of harmony and undisputed beauty. Having that in mind, we have created Amaron Wood vinyl click floor.

PERFECT MATCH

PERFECTLY MATCHED COLORS THANKS TO DEDICATED DESIGNS PREPARED BY A.DESIGN STUDIO

COLOR MATCHED AND MONOCOLOR SKIRTING BOARDS - TORE

TORE is our new SOLID CORE skirtings created in a brand new technology giving it a 100% water resistance as well as a higher abrasion resistance. Due to the highly advanced technology of digital printing, we gained an unprecedented fidelity to raw materials at the surface of the skirtings, which now look like actual wood, stone or concrete. It allowed us for an ideal matching of the design of the skirtings. With the multistep process of the production TORE gains an ideally matte surface.

As a result, skirtings obtain a deep thread design enriching each interior and underlining its beauty.

In addition to it, our product is environmentally friendly. The printing technology is based on using the VOC Free and solvent-free paints to guarantee neutrality for the environment. For colors match see page 80-81.

UNDERLAYS

MULTIPROTEC VINYL CLICK

Special needs require special solutions. For areas with high level of traffic. Floors with click system require an underlay with high value of Compressive Strength. This is exactly what you can expect from our products. If the underfloor will be used do not worry you are covered – our products also perform well with underfloor heating thanks to the low value of thermal resistance. Additionally, Multiprotec products **have a Bfl-S1 fire class.**

SECURA VINYL CLICK

Products dedicated for vinyl floors with click system. Suitable for areas with high traffic level. High CS value improves the quality of the system and increases the durability of the floor. This product is very easy to install and align thanks to accordion form and cutting lines. High IS value - **(IS = 19dB)** for this XPS products allows for implementation in commercial areas where special parameters are required.

STAIRS SOLUTION FOR CLICK FLOOR

The same floor throughout the house, in the rooms, in the kitchen and even on the stairs. Thanks to the Arbiton stair profile system, you can finish your stairs using panels from the Amaron and Liberal collections. Using the same click panels, you can finish both treads and risers. In this case, the panels are glued to the floor. The profiles have been designed in an

aesthetic and minimalistic way. Finishing the stairs with the use of Arbiton profiles is as complicated as laying the click floor. It is faster than standard solutions and does not require a specialized team. Profiles are sold in an universal 2m length, which allows you to cut them to the desired size and use in almost any investment.
